

UNISTRUT CUSTOM LENGTH CHANNEL

Unistrut can provide our channel in custom lengths to your specifications. Ready-to-install custom lengths can save time and cost on the jobsite, reduce scrap, and reduce errors in the field.

Custom lengths are available at any length from 6" to 20' with a $\pm 1/8$ " tolerance. In some cases we can provide lengths greater than 20'.

Please complete the below form and submit as noted at the bottom so we can provide a quote.
