

## UGM10

*Introducing the latest addition to our product portfolio*

Atkore Unistrut are excited to announce UGM10 (Universal Hinge Mount) is available now! UGM10 is the ideal solution for suspending threaded rod vertically from an angled roof or ceiling.

### Features & Benefits

- ▲ Can be fixed directly to roof sections, or attached to Unistrut channel mounted across purlins/beams
- ▲ Accepts all M10 ZP threaded products (including threaded rod)
- ▲ Allowable load 3.0Kn (Kg) per Universal Hinge Mount. Factor of safety = 3
- ▲ Applications include suspending trapeze supports, pipe clamps, cable trays, light fittings, etc., from any angled roof or ceiling.
- ▲ Fully adjustable through 135 degrees to suit any mounting application.
- ▲ Tighten threaded rod into position using the serrated nut and locking plate (both supplied)
